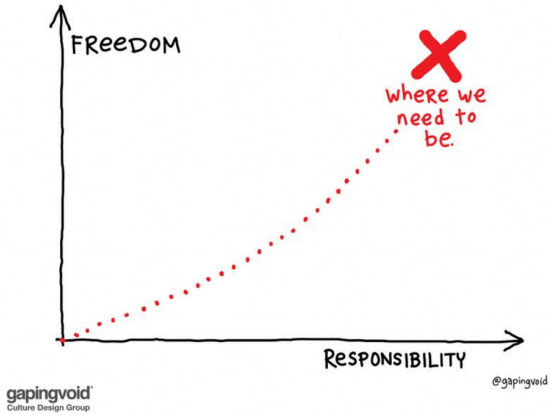
Today's Agenda

Work on Section 4 of the Data Project 2 Report

Justin Leinaweaver (Fall 2021)

Pizza, Politics and Freedom



FREE pizza

Friday, October 8th @ noon

The plaza outside Stone Chapel

Brought to you by the Meador Center for Politics & Citizenship

Data Project 2: NMC

Prepare a report **introducing and analyzing** our second data project.

Sections (By Argument)

1. Why is this project important?
2. How confident should we be in the methodology?
3. What does the world look like according to this data in 2016?
4. **How is the world changing across time according to this data?**
5. Based on your analyses how can we best use this data project to understand the world?

Brainstorming Section 4: Ideas to Test?

- `cinc`: The Composite Index of National Capability (CINC) score
- `irst`: Iron and steel production (thousands of tons)
- `milex`: Military Expenditures (1816-1913 thousands GBP, since 1914 thousands USD)
- `milper`: Military Personnel (thousands)
- `tpop`: Total Population (thousands)
- `upop`: Urban population (pop in cities $>$ than 100,000; in thousands)
- `pec`: Primary energy consumption (thousands of coal-ton equivalents)

Brainstorming Section 4

- `cinc`: The Composite Index of National Capability (CINC) score
- `irst`: Iron and steel production (thousands of tons)
- `milex`: Military Expenditures (1816-1913 thousands GBP, since 1914 thousands USD)
- `milper`: Military Personnel (thousands)
- `tpop`: Total Population (thousands)
- `upop`: Urban population (pop in cities $>$ than 100,000; in thousands)
- `pec`: Primary energy consumption (thousands of coal-ton equivalents)

Across Time

- Track a few country's CINC scores across time
- Track the distribution of CINC scores across time
  - Option A: 25th, 50th and 75th percentiles
  - Option B: Mean +/- 1 standard deviation

Next Week

Tuesday

- Finish and submit the reports

Thursday

- Build and submit presentations
